SUMMARY

Software Development student with hands-on experience in C# and .NET, focused on backend development. During my internship at the Superintendencia de Bancos, I built REST APIs, Worker Services, and integrated external APIs using OAuth authentication. I am looking to join a development team where I can continue growing in software architecture and process automation, contributing efficient and well-structured solutions.

EXPERIENCE

Internship — Junior Developer

Aug 2025 – Jan 2026

Superintendencia de Bancos de la República Dominicana · Santo Domingo, DR

- Developed REST APIs using C# and .NET for data exposure and consumption.
- Implemented Worker Services to automate queries to external APIs.
- Integrated the ManageEngine API using OAuth authentication.
- Processed JSON data and controlled duplicate entries via control files.
- Implemented execution logs and managed configuration with appsettings.json.
- Tested and validated API endpoints using Postman.

Internship — Technical Support

May 2023

E.threan · El Millón, Santo Domingo, DR

- Managed calls and emails for internal and external clients.
- Provided remote technical support via TeamViewer and AnyDesk.
- Registered and updated database records ensuring data integrity and confidentiality.
